FLS CONNECT

FLS CUSTOMS

LOGIQUANTA

A SMARTER NETWORK OF LOGISTICS BRANDS

FLS Group brings together four specialist divisions under one unified group; each built to solve a specific challenge in the supply chain. Whether you're moving goods across the UK, clearing customs at the border, or optimising your European transport routes, our brands work in sync to deliver total control.

FLS CONNECT

Contract Logistics, Evolved

FLS Connect is our contract logistics service, providing long-term, tailored logistics partnerships for customers with regular or high-volume requirements.

Through centralised coordination, preferential rates, and seamless tech integration, we act as an extension of your team—delivering consistency, cost control, and visibility.

What you get with FLS Connect:

- Fully managed logistics function (contracted 4PL)
- Access to our nationwide, pre-approved carrier base
- No fuel surcharges and volume-based cost savings
- Dedicated Account Manager and SLA delivery
- Real-time tracking through the FLS Connect Portal

Strategic logistics that work harder, smarter, and faster—for the long haul.

FLS CUSTOMS

Clearance Without the Complexity

FLS Customs provides full-service UK & EU customs clearance with specialist in-house expertise and automated digital processes.

We simplify compliance and speed up clearance while giving you full transparency and document control.

Key services include:

- Import & export declarations
- Transit (T1) and bonded warehouse documentation
- Tariff classification and duty optimisation
- Digital document storage & audit trail via the FLS Portal
- Ongoing consultancy from our customs specialists

Always compliant. Always in control.

FLS FORWARD

**Freight Forwarding That
Flexes with You**

FLS Forward delivers scalable freight solutions across the UK and Europe, ideal for businesses with fluctuating or project-based needs.

Whether it's full loads, part loads, or time-critical shipments—we find the right route, the right vehicle, and the right cost.

Why choose FLS Forward:

- Fast access to the UK's largest vehicle network
- Flexible freight options, including express and multimodal
- Smart allocation through the FLS Freight Hub
- End-to-end tracking and 24/7 support
-

Every journey. Covered.

LOGIQUANTA

Smart Transport Solutions for Europe

Logiquanta combines data-driven logistics with pan-European reach.

Using the FLS Freight Hub, we optimise route planning, reduce waste, and ensure consistent service across borders.

With Logiquanta, you benefit from:

- Tech-led European road transport solutions
- Real-time visibility across your supply chain
- Smart matching to reduce empty miles
- Seamless reporting and cost control

The future of freight is connected—and it starts here.
