Schlingen Logistics Company Presentation

LOGISTICS  
SOLUTIONS

# Create something awesome, everyday.

---

We are a team of professionals and logistics experts. In short, problem solvers.

We are a neutral service provider for freight forwarders, airlines, industrial and commercial companies in the Cologne / Bonn region. Out of conviction and enthusiasm.

It all began more than 40 years ago: When Norbert Schlingen started a one-man operation in the basement of Cologne / Bonn airport cargo center. In the meantime, we have become a medium-sized group of companies with over 120 employees.

But our corporate DNA is still the same: honest, direct, down to earth.
